

Masonry's Role in Green-Building and Fire-Resistant Building Trends

WEBINAR

Wednesday, March 24, 2021
1:00 PM

Discussion Topics Covered:

- Green Building & Netzero Carbon Provisions
- Where Masonry fits well into this, versus glass facades
- Fire-resistant construction, Codes, and passive fire resistance
- Masonry vs. light-frame wood structures, and mass timber
- A look at the groups that IMI is engaging with regarding these topics

RSVP to reserve your spot!

Please email name(s) and company for all attending virtually to:

Michael Thompson,
Executive Director, MCAC
